Dark Route Foreman Killed in
Truck and Horse-Drawn
Wagon Crash.

Barthsheller, 48, of 230
Marion Dairy Co., was killed
when his horse-drawn wagon
was struck by a truck today
on a dark route. The wagon
was carrying a delivery truck
from the Marion Dairy Co.
The accident happened on State
road near the intersection of
the Marion county road.

Barthsheller was
killed by Dr. Richard
Marion county coroner
after his arrival at City hos-

pital. Vestal of Kensington
was injured with Mr. Barthsheller
and was taken to the hospital.

Fog Blamed
The fog was the first time
the wagon and truck were
seen. The driver of the
truck, Fred Brown, 22, of Col-

umbia, was driving the truck
when it struck the wagon. The
wagon was carrying a delivery
truck from the Marion Dairy Co.

U. S. Troops Advance in Guadalcanal

By The Associated Press

WASHINGTON, Nov. 9.—The
American troops on Guadalcanal
appeared today to be pushing their
lines slowly but steadily eastward
as torpedo-boat attacks took fresh
toll of the enemy fleet in the Sol-

omons.
The latest navy communique,
however, disclosed that motor tor-
pedo boats probably sank one of
two destroyers they attacked just
north of the American positions
on Guadalcanal Saturday morning,
and an aerial attack that after-

noon on an enemy formation con-

sisting of a light cruiser and ten
destroyers resulted in the possible
sinking of the cruiser and heavy
damage to one destroyer.

The Japanese lost 12 of the
planes which attempted to inter-

cept the attack, and the American
fighters lost four of their own.

The only action reported ashore
was an advance by the army and
marine corps troops to the Mat-

ruh river, four miles east of Koli
point, the vicinity in which the
Japanese landed reinforcements
several days ago.

This advance may have isolated
a body of enemy troops on Koli
point.

Axis Force Surrenders Near
Matruh; Allied Planes Ham-

mer Rommel Columns.

By The Associated Press

CAIRO, Nov. 9.—British troops
pursued Field Marshal Rommel's
retreating axis forces into Libya
yesterday and enemy troops which
had been holding out near Mat-

ruh have capitulated, British
headquarters announced today.

Allied air squadrons continued
to blast the line of the enemy re-

treating, shooting up fleeing columns
of trucks which were left without
aerial protection, a communique
said.

Fighter-bombers were said to
have shot up 50 enemy trucks in
one raid alone.

Among the prisoners taken at
Matruh was the commander of the
Italian Pavia division.

The communique did not give
the number of captives taken
yesterday (merely reporting that
many more prisoners had been
collected, but earlier British re-

ports said that six entire Italian
divisions—perhaps 80,000 men—
had been captured, along with
complete equipment.

This would indicate it was said
that Rommel's strength had been
cut down to some 20,000 men.

Despite the scope of allied aerial
operations only four aircraft were
reported lost Saturday and Sun-

day night. By contrast axis air
losses Saturday were put at "at
least" 12 planes.

The six Italian divisions re-

ported captured in the southern
reaches of the El Alamein line
after being abandoned by their
German comrades-in-arms were
identified as the Trento, Pavia,
Bologna, Brescia, Folgore and
Tieste divisions.

Also in British hands, these
sources said, were 500 of Rom-

mel's anti-tank guns, 300 field
guns and 100 anti-aircraft guns.

Where Yanks Landed in North Africa

Principal points where American troops have landed and are attacking in French North Africa
are shown on the above map. Vichy French naval bases, including Toulon, France, where the
main French fleet is reported to be, are indicated.

In command of the land, sea and air forces participating in the
invasion of French North Africa is Lieut. Gen. Dwight D. Eisenhower,
left above. His second in command is Maj. Gen. Mark W. Clark,
right, who, like General Eisenhower, has been in London for months.

Troops Land at 10 Points on 1,000-Mile Coast Line

By The Associated Press

United States troops took over
Algeria today and cut eastward
rail and road communications at
perhaps ten landing places along
a 1,000-mile coast of French
North Africa in swift establish-

ment of a second front labeled
made in U. S. A. and aimed
across the contested Mediterranean
at Hitler's Europe.

On the east, the hard-driving
British Eighth army had won
back Egypt and chased the tal-

tered remnant of Field Marshal
Rommel's armored force back into
Libya, where every mile of re-

treating brought him closer to the
eventual striking range of the
Americans.

Vichy broadcasts reported New
American landings on the Atlan-

tic coast of Morocco, said French
naval forces suffered severe losses
in a naval battle outside the
port of Casablanca, declared that
Casablanca itself had been bom-

arded heavily and described the
naval base at Oran on the Medi-

terranean coast of Algeria as
virtually encircled.

Algeria capitulated, Admiral
Jean Darlan, anti-British com-

Lieut. Gen. Dwight D. Eisenhower,
second in command of the land, sea and air forces participating in the
invasion of French North Africa, is shown above.

Young Generals Lead American Forces in Africa

Yet, over the field commanders,
is a wiry, tough soldier who made

war department disclosed with
the important commands.

In charge of the United Nations
united command in that African
theater now is 52-year-old Lieut.

hower, a West Pointer from Tex-

as who trained other men in this
country during the first World
war, demonstrated an aptitude

for tank warfare and became a
licensed aviator at the age of 48.

Yet General "Ike" never before
experienced enemy gunfire, a
lack of circumstance quite be-

AMERICAN LOSSES LOW IN ASSAULT ON NORTH AFRICA

By The Associated Press

LONDON, Nov. 9.—United States forces, striking with
overwhelming might and exquisite perfection, closed to-

day upon the key defenses of French North Africa after
inflicting serious losses on the Vichy navy at Casablanca
and capturing Algiers.

This powerful American challenge, still only
at its start, has been achieved with but slight United
States losses, an allied headquarters spokesman said.

Most of the resistance so far has been naval, he said,
but there is no doubt that the combined might of United
States and British naval strength backing up the landing
operations can cope swiftly with any Vichy forces
which might seek battle.

Both axis enemies were said to have entered the de-

fense of North Africa with air action against the allied
fleet off Algiers, but the

headquarters spokesman de-

clared that there was no
truth to reports that the French
fleet had steamed from Toulon to
enter the battle.

A German communique said
that German and Italian planes
had scored bomb hits on six al-

lied warships and four merchant-

ment in attacks since Friday night
against British and American
vessels off Algiers.

The Vichy radio reported that
Italian planes had attacked Gil-

braltar today but gave no account
of the results.

Besides Algiers, which capitu-

lated under land, sea and air at-

tack last night at the close of
the first day of the campaign,
the Americans also had occupied
Sidi, on the Atlantic coast 140
miles south of Casablanca, and a
Vichy communique acknowledged
that the Algerian port of Oran, on
the Mediterranean, was virtually
encircled.

Casablanca, heavily bombarded,
apparently was being enveloped
in a similar action, but there the
United States troops lacked the
coastal highlands as a screen for
their operations. Landings above
and below Casablanca, however, put
the Americans within reach of
roads converging on the city.

Americans still were streaming
ashore in axis-dominated Vichy's
empire and a French communique
disclosed a still wider speed to
the operation with the announce-

ment that landing forces from the
American-British convoys have
established holds as far south on
the Atlantic coast as Agadir, 245
miles below Casablanca, and Mo-

rocco, a port 65 miles closer to
the Moroccan capital.

With these landings, the Amer-

ican footholds in French North
Africa encompass more than 1,000
miles of the coast from around the
bulge of Africa, through the
strait of Gibraltar and into the
Mediterranean.

Dakar, in Senegal, and Tunis, the
western-most domain of French
North Africa, are the only major
coastal areas of the empire so far
except from the allies' blow.

"What has been accomplished is
the initial landings," the head-

quarters spokesman asserted, how-

ever, and observers in London
forecast swift occupation of the
strategic cities and communication
centers in an effort, dove-

tailed with the British Eighth
Army's Egyptian-Libyan drive, to
serve, since it had enabled the
United States to pave the way
for current military operations.

PRESIDENT REQUESTS WAY THROUGH TUNIS

By The Associated Press

WASHINGTON, Nov. 9.—Pres-

ident Roosevelt has notified the
bey of Tunis that the American
armed forces in North Africa hope
to pass through French Tunisia,
apparently to strike eastward to
ward the axis forces now retreat-

ing from Egypt.

The White House disclosed to-

day that the message had been
delivered Saturday night to the
bey, Sid Alouci Pacha, and that
it asserted as one point:

"The formidable and massive
American armed forces which I
am dispatching to North Africa
in collaboration with the forces
of France, will cooperate with
you in the defense of your coun-

try. They have no other aim than
the early destruction of our com-

mon enemies.

"They and their allies hope for
the great privilege of passage
through Tunisia thus enabling
them to accomplish their mission
—the elimination of the forces of
evil from North Africa."

"Tunisia is a French protectorate
lying between Algiers, which
American troops already have en-

tered, and the Italian-controlled
Libya. The bey is the nominal
governor of Tunisia.

The message to him was trans-

mitted through Admiral Jean
Pierre Esteva, French resident
general at Tunis.

While the Chief Executive's
message was couched in friendly,
polite terms, it could be regarded
as a sort of ultimatum to let Uni-

ted States forces go through
Tunisia.

There was no explanation of
the President's reference to col-

laboration with the forces of
France, although this government
had appealed to the French to
cooperate with the American
troops toward the ultimate goal
of freeing the French colonies from
the threat of the axis.

U. S. Meets Token Resistance; Petain Breaks Off Relations

By The Associated Press

WASHINGTON, Nov. 9.—United
States forces, "in control" of
the sea and air and apparently
meeting only token resistance on
land, stormed ahead rapidly in
French North Africa today and
the long-awaited "second front"

drive snapped the 150-year dip-

lomatic friendship between the
American and French govern-

ments, as represented by Vichy.

Formal notice of the severance
of relations was served yesterday
by pro-Nazi Pierre Laval, chief

powerful American invasion army
advanced into French colonies
along a 1,000-mile stretch of the
Africa coast.

News of the break brought no
formal comment from Washing-

ton officials, but it was under-

Marion County's
"Victory House"
Going Up Today

The Marion County Victory
House was being erected today
on the west side of the court-
house square.

The Victory House, heart of
the sales of war bonds and
stamps in Marion county, will
be headquarters of the Marion
County War Bond and Stamp
Committee for the duration of
the war.

When completed, it will be
painted in the national colors
and will be heated, so that it
can be used throughout the
winter months.

Materials will be available to patri-
otic organizations desiring to
contribute in connection with pub-
lic programs and drives.

Responsibility of providing the
war bond and stamp head-
quarters was given John P.
Robt. by the committee chair-

man, E. J. Schoenlaub.

Materials in the build-
ing were donated by Marion
County. It was erected with-

out cost to the committee.

Through efforts of Mr. Robt.
and the cooperation of Marion
County men, Mr. Robt. sur-

vived construction and was
completed this morning when the
erection of the building
was under way.

The Victory House will be in
charge of the women's division
of the war bond and stamp
committee, of which Miss Maud
Graham is chairman.

MARION PLANTS TO BE HONORED

Steam Shovel Co. and Osgood To Get Recognition at State, National Meetings.

Two Marion industrial concerns will share honors with others from over the state and nation in meetings to be held soon at Columbus, O., and New York City.

They are the Marion Steam Shovel Co., which recently received a Maritime Commission "A" and the Osgood Co., which won an Army-Navy "E," both for excellence in production of war material.

They and companies throughout Ohio that have received such awards will be honored at a special ceremony in the annual meeting of the Ohio Chamber of Commerce at Columbus Thursday and Friday of this week, according to arrangements announced for the state meeting.

War Congress Honor Along with companies throughout the nation that have been similarly honored, the Marion concerns also will receive recognition at a session of the War Congress of American Industry in New York City, the National Association of Manufacturers announced today.

At the New York meeting, the more than 600 firms honored by the three branches of the service have been invited to send an officer of the company and an employee representative. The employee will be the man who received the label button on behalf of the workers when the awards were made. The luncheon will be held Friday, Dec. 4, and the speakers will be Robert P. Patterson, under-secretary of war, and James V. Forrestal, under-secretary of navy.

Columbus Program In connection with plans for the Ohio Chamber of Commerce ceremony at Columbus, it was announced that the plan to honor industries is a departure from the established custom of honoring government and business leaders at the annual banquet. Instead, representatives of the workers and management of the plants which have received the awards for "high achievement in the production of war equipment" will take the salute of Ohio business.

Approximately three score representatives of the many Ohio plants winning groups entitled to wear the "E" or the "A" will be present.

This tribute is in honor of workers recalled to service, of women workers, of labor and management of these Ohio plants, united in patriotic bonds on the production line to supply the fighting line," George B. Chandler, executive vice president of the Ohio chamber said.

W. C. T. U. MEETS

A dues paying tea was held by the Anna Gordon W. C. T. U. at the home of Mrs. C. M. Gorbey on the Richland pike Wednesday afternoon. Devotions were in charge of Mrs. Ethel Smith. Mrs. Leonard Thompson played several selections on the accordion. Mrs. Dexter Hazen and Mrs. Clara Lawrence gave reports on the state convention.

MATERIALS CONTROL TO AID WAR OUTPUT

Magazine Reports Plan To Be in Use by July 1.

By The Associated Press CLEVELAND, Nov. 2.—Acceptance of the controversial materials plan, expected to be in full use by July 1, 1943, promises to increase war production by promoting a better distribution of critical materials, the magazine Steel stated today.

Although steel production and distribution under the current priorities system and production requirements plan are functioning smoothly, "it will not so heavy a load of directives and allocations for steel for most essential purposes they have little margin remaining for other consumers," Steel reported.

"The plan is expected to adjust requirements for critical materials to supply and make the quantity and type of needed materials available at the time needed to meet present programs."

At present, "mills are supplying not-rolled carbon and alloy bars for essential purposes on rated orders at close to schedule, but on new business are able to promise no better delivery than second quarter on some finishes."

The steel industry is following up the recent nationwide scrap salvage campaign with a drive to net scrap material of better character than household scrap, including dormant material in buildings, unused rails, and obsolete machinery and equipment.

"Sufficient (scrap) is being furnished steelmaker, to support their operations, but character of the scrap and shortage of workers hamper rapid conversion of yard tonnage into material suitable for steel furnaces."

"It is recognized that continued

What You Buy With WAR BONDS

We must be well supplied with flame throwers since the Nazis and other Axis enemies have used this type of attack against our allies. Your purchase of War Bonds can help buy the necessary supplies of chemicals used in spraying with fire. AT LEAST TEN PERCENT of your income should go into War Bonds every payday. If you are to adequately finance this global war.

U. S. Treasury Department

Production figures, reduced in some instances by war and "lean on open-hearth furnaces," reveal the industry operating last week at 88 1/2 per cent of capacity. Youngstown was up one point to 97 per cent. Wheeling, up four to 81; Pittsburgh, down one to 86; Cleveland, down one to 87 1/2; Cincinnati, down 4 to 88, and Detroit, down one to 81.

1942 TAX COLLECTION CALLED BEST IN YEARS

Treasury Reports Yield Included 52 Per Cent of Delinquent Charges.

The June 1942 tax collection record, which was the best in years, was 95 per cent of the current tax charge for the June collection period, and also \$129,381,000 in delinquent taxes—52 per cent of the outstanding delinquent taxes, the report shows. Total receipts amounting to 150 per cent of the current tax charge as compared with a collection of 120 per cent in 1940, 125 per cent in 1939 and an average of 100 per cent for the past five years of 100 per cent, Treasury Department stated.

He attributes the tax yield to "better times and more money" and to a campaign on collecting.

CAR OWNERS!

New Government Policies Affecting Automobile Transportation

Today, seven out of 10 typical industrial workers depend on cars to get to work, two use public transportation, and one walks.

At a large aircraft factory, 92 per cent of 50,000 workers use private cars to get to work.

At one Navy yard, 3,000 workers travel daily 60 to 85 miles round trip by automobile.

In 749 Michigan war production plants, 75 per cent of 434,000 workers go to work in private cars.

By next January, it was estimated before gasoline was

rationed, out of every 10 tires on workers' cars today, four would be worn out. And by August, 1943, eight out of every 10 tires would be worn out.

The American Automobile Association estimates that cars (before nationwide rationing and the 35-mile limit) were going off the road at the rate of three a minute.

Already over two million passenger autos are "missing." There were 29,418,300 registrations in 1941, but today, the Baruch Committee found, only 27,000,000 cars are still running.

A series of rulings has come out of Washington in recent weeks of great interest and importance to automobile owners—particularly to owners of the nation's 29,500,000 passenger cars. We have been asked today to explain these policies briefly with the reasons for them and to ask your cooperation in making them effective. There are two basic parts to the policy.

- First: driving of all cars is to be cut to essential mileage, with reduced speeds and periodic inspection to prevent tire abuse.
- Second: the Government intends to keep all cars provided with gasoline and tires for their essential miles.
- First step in the program was the order of the Office of Defense Transportation establishing a national speed limit of 35 miles per hour. This will double tire life over what it was at pre-Pearl Harbor speeds.
- Second step will be nationwide mileage or gasoline rationing which will become effective November 22nd on order of the Office of Price Administration. This will cut national average annual mileage to 5,000 miles, which means only 2,800 miles for holders of A ration books.
- Third step will be compulsory tire inspection. This will prevent tire abuse and increase tire life.
- Fourth step will be production of a substantial supply of all reclaimed rubber tires, approved by the Rubber Director. These will give probably 10,000 miles of service when driven at not over 35 miles per hour.
- Fifth step will be to bring all idle tires over 5 per passenger car into a government pool, a plan initiated by the War Production Board, planned by the Office of Price Administration, financed by the Reconstruction Finance Corporation and approved by the Rubber Director.

Taken together these five steps can keep all cars provided with tires for essential use, removing the transportation worries of millions of Americans. Pleasure driving will be out, but use of cars for essential needs will be assured for the duration.

Pooling of all tires in excess of 5 per car is the purpose of the Idle Tire Purchase Plan, which went into effect October 15th and which on November 22nd will become compulsory, for after that date, persons owning more than five tires per passenger car may not legally use gasoline.

Certification by car owners that they do not own over five tires per passenger car must be made before that date on Tire Record Forms available at post offices, garages, and in other convenient places. In areas where gasoline already is rationed, ration books will be revoked if certification is not filed with local rationing boards by November 22nd. In areas where gasoline will not be rationed for the next time on November 22nd, books will be issued until certification is made.

The machinery for collecting tires is simple. You just call or write the nearest Railway Express Agency office saying:

"have tires for Uncle Sam. Come and get them." The express man will call, giving you a simple form to fill out and a receipt. You list on the form your excess tires and state if you wish to give or sell them to the Government at ceiling prices. You also state if you want to be paid by U. S. Treasury check or by War bonds or stamps. Payment will come to you by mail.

If you live outside a zone in which the Express Agency gives "pick-up" service, you deliver your idle tires to the nearest Railway Express office. There are 23,000 in the country; one in almost every railroad station.

Ceiling prices will be paid by the Government for all tires and tubes, less cost of repairs, if needed. What is the correct ceiling price and repair cost for each tire or tube will be determined by expert tire appraisers at government warehouses. Only usable tires are wanted; but difficult repairs will be undertaken, if a tire can be restored to use. Tires beyond repair should be sold to scrap dealers. In case of doubt turn tires in to the Expressman. If examination proves a tire good only as scrap, scrap prices only will be paid.

Passenger car owners are advised to keep their five best tires per car, selling the others to the Government. All passenger car tires are included but "those for cars owned or leased by Federal, state, local, or foreign governments and are on taxicabs or cars for hire, save that when the owner also owns a private car he must turn in all his excess tires. Tires in the hands of dealers, jobbers or manufacturers bought or made for sale are excepted. This includes automobile dealers extra tires. Passenger cars on which truck bodies have been installed are considered trucks, but cars with passenger car bodies, even if used for goods delivery, are not excepted. Neither are taxicabs' cars. All such cars, however, will be provided with tires, according to the Government's plan, if and when they are needed. Station wagons are considered passenger cars, unless used for hire.

Passenger car tubes and truck tires and tubes are wanted and will be bought by the Government, but gasoline will not be withheld to force their being turned in.

Sale of passenger car tires in excess of 5 per cent was made compulsory so that patriotic citizens would not be called upon to make sacrifices not required of others. It puts everyone on the basis of equality.

In closing, we want to emphasize what we tried to make clear at the start. The Idle Tire purchase Plan is part of a 5-point Government program, the purpose of which is not to take cars off the road, but to keep all cars on the road for essential mileage. It will help re-workers to jobs, produce to markets and keep the life stream of traffic flowing, which is essential to the winning of the war. The whole program is reasonable and sensible. The people of America must see to it, through their universal cooperation, that it does not break down at any vital point.

QUESTIONS AND ANSWERS

- Q What is an Idle Tire?
A. An Idle Tire is a passenger type tire in excess of those mounted on running wheels, plus one spare per passenger car.
- Q. Must all Idle passenger car tires be sold to the government?
A. All save those on cars owned by Federal, state, local or foreign governments and those on taxicabs or cars for hire, save that if the owner also owns a private car he must turn in his excess tires. Tires in the hands of dealers (including automobile dealers), jobbers and manufacturers bought or made for sale are excepted. Station wagons are passenger cars unless used for hire.
- Q. What will be paid for tires?
A. Ceiling prices, less cost of repairs, if needed.
- Q. Where can I find out what I will get for my tires?
A. Expert tire appraisers in Government warehouses will determine the correct ceiling price for each tire or tube, and fix repair costs. You will be paid by mail. Everyone will have to trust his Government to pay him all the law allows.
- Q. Is it true no one will get gasoline after November 22 if he owns more than 5 tires per passenger car?
A. Yes, if he or anyone in his household related by blood, marriage or adoption, does so.
- Q. How will the tires be redistributed?
A. Under rationing, through regular tire dealers. The Government is buying the tires and selling them at ceiling prices, standing the cost of collection and redistribution.
- Q. Where can I get an official Tire Record Form, on which to certify I do not own in excess of 5 tires per passenger car?
A. At post offices, garages, and other convenient places.
- Q. Must I sell Idle Tubes also?
A. The Government wants and will buy them, but there is no compulsion to sell.
- Q. Must I sell my spare tire?
A. No; the Government wants only idle tires.
- Q. Must truck tires be sold?
A. No. The Government will buy them, but there is no compulsion to sell.
- Q. Will I get a tire later, if I need one?
A. It is the intention of the Government to give everyone recaps or tires if and when they are needed for essential driving.

MURDER on the Campus

By JERRY MONMELD

MURDER Done

The damage was done, all right. Susan thought, and there was nothing she could do about it. The next move was up to Fred. She wasn't going to make after him even if she wanted to. Until now she had done all she could to help him because he was a swell, and who needed lots of help but this well, this was different, very much different.

It certainly wasn't her place to tell him, frantically, that he didn't have to honor her father's wishes, that he could see her all he wanted to.

The rebellion would have to stem from his own desire. It would have to be his commitment, especially so since her father's visit had been a secret one and she, supposedly, didn't know a thing about it.

Trinidad Club

Detective Sergeant Lake walked into the district attorney's office and drew up a chair with a quick motion.

"I just ran down something that might be a clue," he said. "I had a chat with that Dr. Stephen Coulter. I asked him about Humphries' personal habits—everything he knew about them—and after a while he mentioned that he believed Humphries liked to gamble. So I nosed around a bit and found out he was supposed to have been seen out at Riley Beckett's Trinidad Club."

"So Humphries liked to gamble," said Hinton. "It might be worthwhile for us to find out to what extent."

"I figure the same thing. I think I'll wander out there tonight and chin a bit with Beckett."

Joe, the dormitory warden, looked at him and said, "Well, if it isn't Sherlock Holmes," he snickered. "Come out to play the nicker slot-machine."

Lake snorted. "None of that small stuff for me, Joe. You know that. Where are the quarter bands?"

Then seriously he said, "Riley?"

Joe motioned toward a door at the side of the room. It opened into a corridor leading to Beckett's private office.

Lake knocked and the door was opened by a short, blond man wearing a dinner jacket.

"Well, well," the blond man said. "This is a pleasure. Leo's who's paying us a visit, Riley?"

"Social or professional, Lake?" Riley Beckett asked good naturedly.

"Both," said Lake, dropping his cigarette and he took one. He accepted a light from a gold lighter Beckett held for him.

A Lot of Money

"Riley, how often did Philip Humphries drop in here?"

Beckett, trying with an every-handled letter opener, pursed his lips. "Oh, not very often. Two or three times a month at most. I should judge."

"Always?"

"Nearly always. Once he brought a friend from Detroit, I think it was. Once he was here with a girl, but mostly he came alone."

"A girl—who was she?"

"Don't know exactly. A college girl, maybe. A trim-looking blonde with the neatest pair of glasses you ever saw in your life."

very sporting of Humphries to leave without taking one of his creations, was it?"

Lake stood up. "No, I guess not," he said, patting on his hat. "Thanks, Riley. I'll be seeing you."

"Any time, John," Beckett said, using his go out to the bar and have a drink on me."

To be continued.

SELL YOUR IDLE TIRES TO UNCLE SAM—NOW!

EFFECTIVE NOV. 22, IT WILL BE ILLEGAL TO USE GASOLINE IN THE OPERATION OF YOUR PASSENGER CAR IF YOU OWN IDLE TIRES

Idle Tires purchased by the Government will be used to help keep cars on the road for essential uses

Leon Henderson
PRICE ADMINISTRATOR

Wm. Jefferson
RUBBER DIRECTOR

HERE IS HOW TO SELL YOUR IDLE TIRES TO UNCLE SAM AT CEILING PRICES

Keep your 3 best tires for each passenger car; one for each running wheel of passenger car trailers and similar equipment. All other tires, new or used, regardless of condition, are Idle Tires. Sell all usable Idle Tires (even those needing repairs), to the Government before Nov. 22.

Railway Express Agency has been designated to collect usable Idle Tires (at no cost to you) and deliver them to Government warehouses. In areas where Railway Express has "pick-up" service, call or write nearest Railway Express Agency office and say you have Idle Tires for Uncle Sam. A truck will call.

In rural areas beyond Express "pick-up" zones, make usable Idle Tires and tubes to the Railway Express Agency office, usually at nearest railroad station. The Express agent will give you a receipt. Scrap tires should not be turned over to Railway Express. Sell them directly to scrap dealers.

All Government-owned Idle Tires will be accepted at ceiling prices, covering all costs of repair, if needed. (Ceiling prices are shown opposite on this page.) A U. S. Treasury check for payment to you will be sent to you by mail. Tell the nearest agent if you prefer payment in War Savings Bonds or stamps at nearest postoffice.

IDLE TIRES MUST BE PUT TO WORK TO HELP WIN THE WAR

Idle Tires are needed to keep America rolling. Workers must get to their jobs. Farm products must be delivered to market. Essential services must go on. So Uncle Sam has taken steps to buy every idle tire for a national stock pile to keep every possible car in service until synthetic rubber production is able to take over the load.

The purpose of the Idle Tire Purchase Plan is not to take cars off the road, but to help keep cars on the road for essential uses. When you need other tires, the Government will do everything possible to see that you are supplied.

FACTS ABOUT THE IDLE TIRE PROGRAM

WHAT IS AN IDLE TIRE? Under the Idle Tire Purchase Plan, the ownership of passenger car tires will be limited to five tires per passenger car owned and to one tire for each running wheel of each passenger car trailer or other such equipment owned. Any passenger car tire in excess of those limits is an Idle Tire. Beginning November 22, it will be illegal to use gasoline or permit gasoline to be used in the operation of any passenger car if the owner of the car owns one or more Idle Tires. Furthermore, it will be illegal for any person owning a passenger car, to use or permit gasoline to be used in its operation if any person in his or her household who is related by blood, marriage or adoption, owns one or more Idle Tires.

EXEMPTIONS—

- Passenger car tires intended for use on trucks, taxicabs, public rental cars, jitneys, buses, cars licensed for hire, etc., are exempt from Idle Tire Purchase Plan regulations. The exemption does not apply, however, if the owner of such tires also owns a private passenger car and uses gasoline in its operation.
- Passenger car tires intended for use on cars owned or leased by Federal, State, local and foreign governments are exempt.
- Passenger car tires in the hands of dealers (including car dealers), jobbers or manufacturers, bought or made for sale, are exempt if they have been reported to the Government on official inventory forms.

DISPOSING OF IDLE TIRES—Usable Idle Tires and Idle Tires that can be made usable by repairs can be disposed of only to the Government in accordance with the instructions given elsewhere on this page. Any other disposition of such tires is illegal and subject to severe penalties. Idle Tires that are beyond repair should be sold to scrap dealers.

TRUCK AND BUS TIRES—TUBES—Compulsion does not apply to bus-type and truck-type tires and tubes, nor to passenger car tubes, but the Government will buy all that are offered.

PENALTIES—Severe penalties are provided for the illegal use of gasoline on and after November 22, or for making false statements about tire ownership. If in doubt on any question under the Idle Tire Purchase Plan, full details will be found in OPA Rationing Regulations.

READ THESE IMPORTANT INSTRUCTIONS

The Government's Idle Tire Purchase Plan requires that you do two things if you wish to use gasoline to operate your passenger car.

FIRST. You must dispose of ALL Idle Tires. If the Idle Tires are usable or can be made usable by repairs, they MUST be sold to the Government. If they are beyond repair, they should be sold to scrap dealers.

—In areas where gasoline is already rationed, Idle Tires must be disposed of before November 22.

—In areas where gasoline rationing becomes effective November 22, Idle Tires must be disposed of before you apply for a gasoline ration book.

SECOND. You must file a Government Tire Record Form. (Forms may be obtained at War Price and Rationing Board Offices, Post Offices and Garages.)

—In areas where gasoline is already rationed, Tire Record Forms must be taken or sent to your War Price and Rationing Board by December 12. Earlier is better because this form also contains the Tire Inspection Blank which must be signed by your War Price and Rationing Board and which you must have in your possession after December 12.

—In areas where gasoline rationing becomes effective November 22, Tire Record Forms may also be obtained at school houses when you register for gasoline. The forms must be filled in and presented before you can obtain a gasoline ration book.

Note: In both cases it will be illegal on and after November 22 to use or permit gasoline to be used in any passenger car you own if you, or any member of your household related by blood, marriage or adoption, owns one or more Idle Tires.

EXAMPLES OF PRICES THE GOVERNMENT WILL PAY FOR YOUR IDLE TIRES

Tire Size	USED TIRE PRICES			
	Good Depth 7/32" or more	Good Depth Less than 7/32" or less	Good Depth 1/2" or less	Scrap
7.00x16	\$16.00	\$4.00	\$3.00	4.00
8.00x16	7.25	3.00	2.50	3.50
8.00x16	8.10	4.40	4.40	3.50
8.25x16	9.10	7.40	5.00	4.00
8.50x16	9.90	8.00	5.50	4.00
7.00x16	11.10	9.10	6.10	4.50
7.50x16	14.10	11.00	7.70	5.00
8.25x16	7.40	6.10	4.00	3.50
8.25x16	6.00	5.00	3.70	3.50
8.75x16	6.10	4.90	3.50	3.50

Prices in tables marked "7/32" or less" also apply for all registered and standard tires.

Only regular tires are listed. Other sizes priced proportionately.

The above prices apply to used tires which need not be repaired. If repairs are needed, each listed by the operator will be deducted, but no deduction will be made for retying. If tires received from good only as scrap, scrap prices will be paid.

USED TUBE PRICES

Standard price for new used passenger car tubes is \$4.00.

NEW TIRE AND TUBE PRICES

New tires, including undamaged tires run less than 1000 miles and new tubes, will be paid for at maximum applicable OPA prices to nearly every case the manufacturer's current list price of goods.

Public Still Likes Idea Of Wartime Worker Draft

By GEORGE GALLUP
American Institute of Public Opinion.

Nov. 9.—All-powerful control legislation shelved for the time being, the public continues to favor the principle of drafting men for wartime jobs.

The Institute's survey measured the country's attitude toward a registration for war work of all men and women not already registered or in war service. More than three out of every four (76 per cent) of all persons polled approve.

Then the survey asked:

"After finding out what each person can do, should the government have the power to tell each citizen what to do as his part in the war effort and require him or her to do it?"

The vote is:

Yes 53%
No 36
Undecided 11

As a matter of fact, the majority of voters favored a manpower control program as far back as last March, when a similar Institute survey found 61 per cent approving.

Importance of Opinion

In all such programs affecting civilian life, public opinion is only one factor, but it is a potent one. Majority opinion had for more than a year been on the side of wage-price control, and it was adopted. For more than two years the public wanted the income tax base broadened, and it was broadened.

Today the weight of opinion is on the side of longer hours of work, which would be one way of increasing the labor force. As long ago as last March, the Institute found that if the public set the length of the work week in American industry, it would be 56 hours for the war's duration, as compared to an average of 42.4 in American factories in July.

And today, as the latest poll shows, the weight of opinion is also on the side of manpower control.

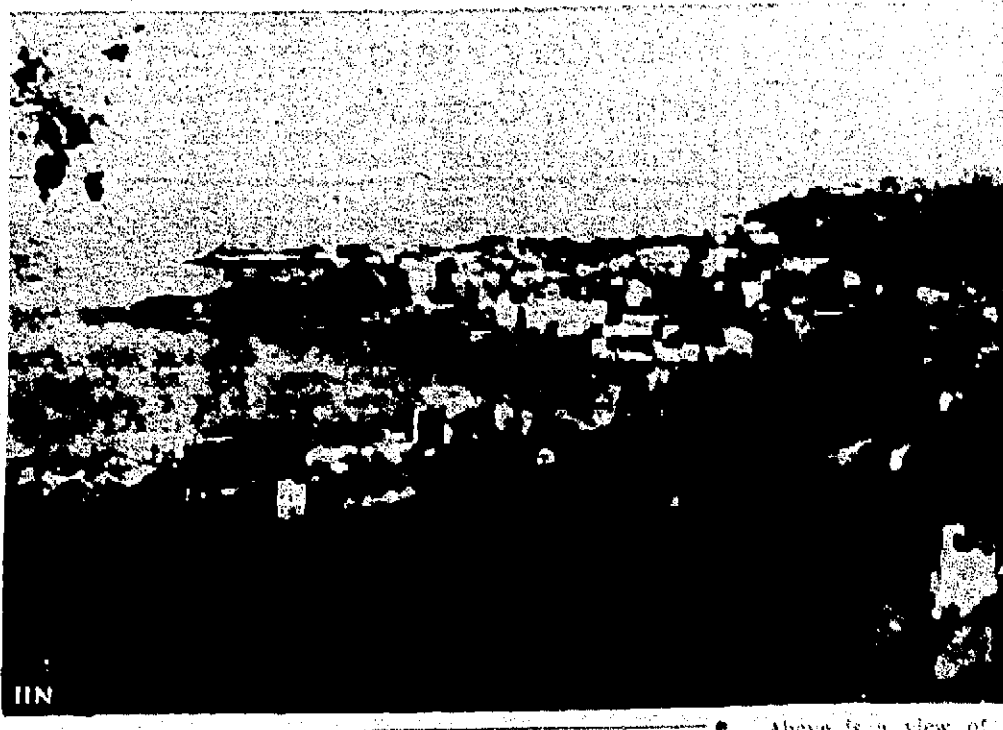

England's Experience

In England a manpower control program of the most sweeping character has been in effect since the war began. The Second Emergency Powers Act of May, 1940 gave the government full power to make defense regulations "requiring persons to place themselves, their services and their property at the disposal of His Majesty." As later implemented, this power provides the sanction for large-scale transference of labor "into and within vital war industries."

Don't Neglect Slipping FALSE TEETH

Teeth drop, slip or wash away, talk, eat, laugh or spit to annoy and embarrass each day. F.A.S. dentures (non-acid) are made more firmly and securely. No sunny goodness or fading. Get F.A.S. today at any drug store.

ONE OF MAIN POINTS OF AMERICAN TROOPS' INVASION

Above is a view of Algiers, capital of Algeria, one of the main invasion fronts of the U.S. expeditionary force in Africa.

In England, according to a report from Dr. Henry Durant, director of the British Institute of Public Opinion, public sentiment has strongly approved the manpower control program.

All men aged 18-45 have been registered either for the armed forces, including civil defense, or for direction into industry. The government has exercised its power to direct workers to take new jobs in the interest of the war, and there are fines or imprisonment for failure to comply with such a directive.

Despite the complex administrative problems of the program, prosecutions leading to fines or imprisonment have been necessary in only a very few cases.

Canada's Plan

Canada has likewise been carrying out a manpower control program, with the complete support and approval of Canadian public opinion.

Commenting on the reaction in Canada, Wilfrid Sanders, director of the Canadian Institute of Public Opinion, reports:

"Controls which only a few months ago would have seemed inconceivable in a democracy are being put into effect where manpower is concerned in Canada. For example there have been shifts of hundreds of men from gold mining to base metal mining and the closing down of unstrategic retail outlets."

"Yet the Canadian opinion studies have shown that long before such governmental powers were made effective, the Canadian public was in favor of compulsory selective service and today approves the job-freeing regulations passed by the cabinet."

"Last May opinion studies indicated that nearly half of the Canadian working population not only thought they could be of more use to the war effort in some other job, but were willing to shift jobs to war firms. Revolutionary as the methods of harnessing man to machine have been, public opinion has consistently been in advance of such methods."

Hitler Promises He Won't Run Out As Kaiser Did

Nazi Chieftain Pledges To Stick; Brushes Aside Rommel Defeat and Plans Blow at U. S.

By The Associated Press.

LONDON, Nov. 9.—Adolf Hitler promised the German people last night that he would strike back at the American forces in North Africa and assured them that he would never flee Germany if the situation became difficult.

The German leader, speaking in his oldest Nazi party associates in Munich on the anniversary of the 1923 Munich putsch, brushed aside the smashing of his army in Egypt by the British as "an advance of a few kilometers" and declared that "those who deal out the last blow will win the war and the Germans will do that."

Hitler referred only fleetingly to the American landings in Algeria and Morocco, asserting that the "last and decisive word will not be spoken by Mr. Roosevelt."

"We will prepare all our counter blows thoroughly as always and they will come in due time," he said.

Hitler referred to the outcome of the war again and again, emphasizing that he had no doubt of final victory and reminded his people that in the course of the war "absolute faith is necessary in order not to despair."

He turned suddenly to the outcome of the first World War and the flight of the Kaiser to the Netherlands and promised the Germans there would be "no repetition" of the 1918 collapse.

"The Kaiser was a man who did not have the strength to do things through," Hitler said. "In me, however, Germany has a man who simply does not know

Verdun. The important thing is that no ship can come up the Volga."

It isn't possible, he said, to achieve successes every week.

Referring to the smashing RAF blows against German cities, Hitler said "the moment will come when the enemy will find out that Germany's inventive genius has not been asleep. The enemy will receive such a reply that he will be overwhelmed and stupefied."

HIGHWAY PROJECT AT WALDO NEARLY FINISHED

Roadway Widened Through Town; Shrubbery To Be Replaced.

Widening and rebuilding approximately nine-tenths of a mile of the Marion-Columbus road through Waldo is expected to be completed this week. Nearly all the work is finished with the exception of the replanting of shrubbery and seeding the ground at each side of the highway.

The work started last June by Lester Clymer of Marion, contractor, is in charge of L. D. Jones of the state highway division at Delaware. The highway has been widened approximately 10 feet on each side with concrete and the old highway rebuilt with black top.

Marselles Seniors To Present Play Wednesday

The senior class of Marselles High school will present a play, "Hook, Line and Sinker," Wednesday in the school auditorium.

The cast includes: Richard Schertzer, Mary E. Crim, Hazel Parzell, Blanche Roshon, Justin Kaser, Raymond Swavel, Walter Wayne Albert, Bertha Mae Hartle, Eleanor Young and Lovena McCollough.

IT'S UP TO ALL OF US

Local and Long Distance lines are becoming more congested every day. We cannot add to present facilities because the needed materials are being used in the manufacture of war weapons. You can improve present service by making your conversations brief and avoiding unnecessary calls to Washington, Chicago, Detroit and other war centers. However Long Distance lines to nearby communities are open as before.

THREE CHILDREN DIE
CINCINNATI, O., Nov. 9.—A 15-year-old girl carried a baby to safety when fire destroyed her home here last night, but three other children perished. The dead, all children of Mr. and Mrs. Willard Lang, were: Phyllis, 3; Sherrin, 3; and Willard Jr., 5. Police Sgt. Fred Audenbush said the parents left the children in care of the 15-year-old neighbor girl and quoted her as saying an oil stove caused the blaze.

ARMORY LOOTED
COLUMBUS, O., Nov. 9.—Sawing a door lock, thieves broke into the Ohio state armory over the weekend and stole a 20-pound safe containing \$1,000 in cash and U. S. government bonds, Col. O. L. Brunzell reported.

OHIOAN KILLED
ANTIGO, Wis., Nov. 9.—Pvt. William Wen, 21, of Perry, O., an enrollee at an army officer training school, was killed in a plane crash 25 miles north of here Saturday.

WAR ISSUES LOSE GROUND

Peace Stocks Forge Into Lead in Today's Wall Street Market Trading.

By The Associated Press
NEW YORK, Nov. 9.—Peace stocks developed strength and so-called war issues lost ground in today's market as the latest turn in world affairs brought conflicting trends throughout the list.

While many favorites posted new highs for the past year at the start, selling soon cropped up in rails, aircrafts and others that may run into post-war difficulties.

Carrier bonds softened with rail shares. Common stocks were mixed.

Among stock new highs for 1942, or longer were posted for International Telephone, Standard Oil (New Jersey), General Motors, Yellow Truck, Montgomery Ward, Sears Roebuck, Woolworth, International Harvester, Johna-Manville and Radio Corp.

Backward were New York Central, Pennsylvania, U. S. Steel, Bethlehem, Youngstown Sheet, Douglas Aircraft, United Aircraft, Glenside, Martin, Kennecott and International Nickel.

One brokerage analyst gave this diagnosis of the market situation: "Late last week the improved prospects for a fairly early ending of the war, at least in Europe, found reflection in cross-currents between war-benefitted issues and those with an optimistic peace-time outlook. These tendencies were accentuated by the result of later Trans-Atlantic developments."

WASHINGTON

(Continued from Page 1)

and to General Antonio Oscar D'Fragosa, commander of the Portuguese government, the President dispatched another message saying that the African defense "preparations in no manner whatsoever a move against the people of Portugal."

Petain, aged Vichy chief of state directed the French colonies to resist "such a cruel initiative."

"France and her honor are at stake," he pleaded Mr. Roosevelt. "We must defend ourselves."

Little Desire To Fight

The war department noted however that "the lack of resistance encountered at most of the North Africa beaches" indicated that the French there "had no desire to oppose the entry of American troops."

Multiple landings were contested mainly by French navy and coast artillery, the war department said in its first official communique on the operations which it said "are proceeding according to plan."

Several important airfields were reported occupied and immediately pressed into use by the U. S. army air forces, commanded by Brig. Gen. James H. Doolittle, of Tokyo bombing fame, and the Royal Air Force.

Reporting the U. S. and British naval forces in complete control, the communique said that one allied transport was torpedoed and disabled and two small ships were lost at Oran harbor. The troops aboard the transport, "under a commander who refused to be idle during the operation," leaped to light landing craft and reached their objective 120 miles away.

The "exception and execution of the African invasion—pointing a dagger toward the fleeing Rommel and his Vichy Afrika Corps—indicated publication in this capital."

From Wendell Willkie came the observation that "at last we are on the move."

Congressional leaders expressed satisfaction with the momentous military undertaking launched, as Gen. George C. Marshall, U. S. chief of staff, put it, "with the hopes and prayers of America."

YOUR HEALTH

By LOGAN CLENDENING, M. D.

Allergies

MEN WHO have been rejected for the army and navy on account of allergic states are apt to complain of the injustice of the system. I have just listened to a tale of woe of a young fellow who can't get in on account of sinus trouble. "How is that going to prevent me from fighting a Jap?" he inquires.

Well, it does seem like a little thing, but behind there may be something that is in the nature of real disability. It is a possible indication of a general state of allergy, which has caused quite a lot of trouble already. The number of rejections for allergic conditions has only been about half of one per cent of applicants, but the number is beginning to rise and this percentage is rising faster.

Army regulations state that an applicant who is found to have a chronic disease within the first six months of service shall be considered not to have incurred this in line of duty and is discharged without compensation, thus relieving the government of any further responsibility for pensions, etc.

The applicant who has recurrent attacks of asthma, however, may not have an attack at all during his first six months of service, and manifests it only with a seasonal change, with the blooming of certain plants, such as in hay fever, or the coming into season of certain fruits or vegetables.

And nobody knows what totally unfamiliar plants in Australia, Alaska or the tropics to which he has never been exposed may give an allergic subject a bout of sinusitis or the hives.

The Canadian army learned the lesson because a number of its men broke down with emphysema under conditions of hard military drill, and in most such cases it was found that there had been a history of asthma behind it.

Therefore, the medical boards are inquiring very carefully into the history of selection for attacks of hives, asthma, etc. More careful examination of the upper respiratory apparatus, with a view to detecting allergic possibilities, are now being made. Sinus trouble, or polyps, are presumptive evidence of the allergic state. Branches found nasal abnormalities in 14 per cent of 112 cases of asthma.

The condition of the spine and back, curiously enough, is also an indication of the allergic state. Those who have had asthma in childhood nearly always have a certain amount of round shoulders and rounding of the back, and the orthopedic surgeons are asked to pay special attention to this.

The history is most carefully inquired into for asthma, hives, eczema and sinusitis. All this must be evaluated. Not every candidate with the allergic state is rejected. Most of them can be given limited duty.

Because the North Chilean desert wind blows from the Pacific to the Andes at dawn and from the Andes to the ocean at sunset, irritate miners with railroad traffic equipment with salts to carry them to and from work.

Daily Pattern For Home Use

By ANNE ADAMS

What gift could be more welcome — and more economical — than this wardrobe for a baby doll? Pattern 4255 by Anne Adams is gay, original, complete, with everything from a bib to a bonnet and coat included. It requires a minimum of fabric — a few remnants will be ample.

Pattern 4255 is available for dolls measuring 10, 12, 14, 16, 18 and 20 inches. For individual yardages, see pattern.

Send sixteen cents in coins for this Anne Adams pattern. Write plainly size, name, address and style number.

Every woman who sews needs our brilliant Winter Pattern Book. It's a thrifty wardrobe plan for all the family, with each style quickly available in an easy-to-use, accurate pattern. Pattern Book, ten cents.

Send your order to The Marion Star, Pattern Department, 243 West 17th St., New York, N. Y.

Pitfalls of Love

By ADELE GARRISON

THEY COULDN'T be in better shape," I told Philip Vertizon. They are sleeping soundly, and when they awaken, I'm going to have some hot coffee and a light luncheon set up for them.

"Then I think I'll go on back to my apartment," he said with relief. "It Olga should awaken, she would wonder and worry. And by the way, Margie, he made me see you to run up and see her."

The Stars Say—

For Tuesday, Nov. 10

THINK IT is almost the end of a year of splendid entertainment, and it is a good thing that the stars are generally in a most agreeable and appreciative mood. It could be a time for some advance of the stars, but it is a new direction in the stars, and it is a new direction in the stars, and it is a new direction in the stars.

There were three primary stars in the three hold of a year of splendid promise for him being out on large and important deals or programs, with the hearty support and endorsement of employers, supporters and public or community cooperation. New projects, bold strokes in engineering desirable objectives, exciting ambitions all could get off to an excellent start but may be held up, delayed or postponed by impetuous, reckless, excitable and over-ardent moods or methods.

A child born on this day may have excellent abilities, with much force, ingenuity and enthusiasm which may be carried to excess by excitement, or inability at minor instructions or delays.

Bucyrus Car Owners

Turn in 750 Tires

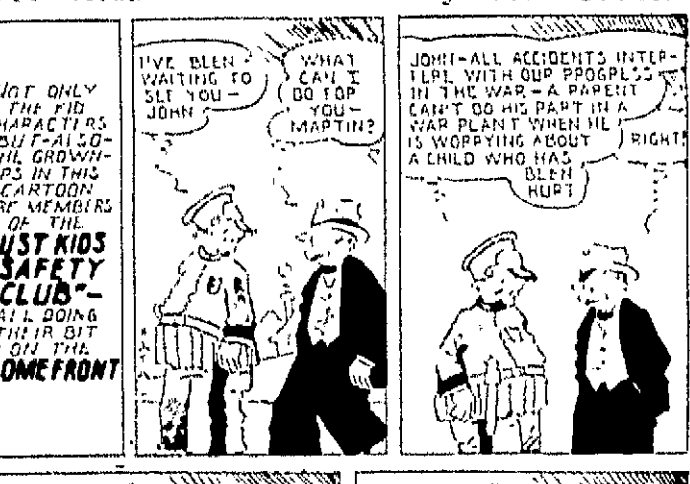

Special to The Star

BUCYRUS, Nov. 9 — Forty-five shipments totaling 750 tires, have been forwarded to the Cleveland headquarters from the Bucyrus express office since the government's appeal for all tires over the fifth on each car. Frank Hanna, local express agent said today.

Owners were turning in tires in large numbers during the last several days, making them eligible to apply for gasoline ration cards.
